

SAFETY DATA SHEET

1.1. Product identifie	er en
Product name:	SILVA Soy wax candle with Eucalyptus scent
UFI:	Not required. The mixture is not classified as hazardous on the basis of their health or physical effects, and it does not need to be notified to the European Chemicals Agency (ECHA) Toxicology Center in accordance with Article 45 of CLP (1272/2008) and Section 3.1 of Annex VIII.
Product type:	Solid (Candles).
1.2. Relevant identifi	ed uses of the substance or mixture and uses advised against
Identified uses	
Air care, continuous Consumer Use.	action.
1.3. Details of the su	pplier of the safety data sheet
Manufacturer:	TL Candles, SIA Legal address: Maijrozu iela 1, Sunisi, Garkalnes pag., Ropažu novads, LV-2137, Latvia Business address: Laboratorijas 4, Riga, LV-1009, Latvia Phone: +371 26111606 E-mail: info@tlcandles.eu Web page: www.tlcandles.eu
1.4. Emergency telep	hone number
	Rescue Service: 112 To be filled by local business.
SECTION 2: Haz	zards identification
2.1. Classification of	the substance or mixture
Product definitio	n: Mixture
Classification accord	ling to Regulation (EC) No. 1272/2008 [CLP]
Not classified.	
•	essified as hazardous according to Regulation (EC) 1272/2008 as amended. 2 for more detailed information on health effects and symptoms, and environmental impact.
2.2. Label elements	
	ion (EC) No. 1272/2008 [CLP]
Hazard pictograms	Not applicable.
Signal word:	No signal word.
Hazard statements	No known significant effects or critical hazards.
Precautionary statements:	
General	Keep out of reach of children. If medical advice is needed, have product container or label at hand.
Prevention	Wash hands thoroughly after handling.
Prevention	
Response	If skin irritation occurs: Get medical advice/ attention.

Date of issue/Date of revision:	08.04.2022	Date of previous issue:	-	Version: 1.0	1/12

Disposal	Not applicable.
Hazardous ingredients	Not applicable.
Supplemental label elements	Not applicable.

Annex XVII – Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

None

Special packaging requirements:

Containers to be
fitted
with child-resistant
fastenings:

Not applicable.

Tactile warning of danger (Δ):

Not applicable.

2.3. Other hazards

For candles (EN 15494:2019), minimum height: 5mm

Other hazards which do: not result in

classification:

Recommended phrase:

People suffering from perfume sensitivity should be cautious when using this product. Air Fresheners do not replace good hygiene practices.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

A mixture of vegetable wax, non-hazardous additives and fragrances, and the hazardous additives and fragrances listed below.

There are no ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

REACH Registration: In accordance with Regulation (EC) No. 1907/2006 of the European Parliament and of the Council. Point 9 of ANNEX V to Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) exempts vegetable waxes from registration.

Veidi[.]

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] The substance is included in the SEVESO Directive.

SECTION 4: First aid measures

4.1. Description of first aid measures

Date of issue/Date of revision:	08.04.2022	Date of previous issue:	-	Version: 1.0	2 / 12

Eye contact:	Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs.
Inhalation:	Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur.
Skin contact:	Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur.
Ingestion:	Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur.
Protection of first- aiders	No action shall be taken involving any personal risk or without suitable training.
4.2. Most important sys	mptoms and effects, both acute and delayed
Over-exposure signs/sy	<u>vmptoms:</u>
Eye contact:	No specific data.
Inhalation:	No specific data.
Skin contact:	No specific data.
Ingestion:	No specific data.
4.3. Indication of any in	nmediate medical attention and special treatment needed
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled.
Unsuitable extinguishing media	No specific treatment.
SECTION 5: Firefi	ghting measures
5.1. Extinguishing media	
Suitable extinguishing media:	Use an extinguishing agent suitable for the surrounding fire.
Unsuitable extinguishing media:	None known.
5.2. Special hazards aris	sing from the substance or mixture
Hazards from the substance or mixture:	In fire decomposition products may be produced.
Hazardous combustion products:	No specific data.
5.3. Advice for firefight	ers
Special protective actions for fire-fighters:	Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Date of issue/Date of revision:	08.04.2022	Date of previous issue:	=	Version: 1.0	3 / 12

solutions							
SECTION 8: Expo	sure c	ontrols/perso	nal protection				
The information in this	section c	ontains generic adv	ice and guidance.				
8.1. Control parameter	rs						
Occupational exposure	e limits (C	DEL):					
ES: Indicative Occupati	onal Expo	osure Limit Values (IOELV):				
Substance		OEL mg/m³ (8 h)	OEL ppm (ml/m³) (8 h)	OEL mg/m³ (15 min)	OEL ppm (ml/m³) (15 min)		
Values not established		-	-	-	-		
Latvia (AER, reg. 325/20	11):						
Substance		OEL mg/m³ (8 h)	OEL ppm (ml/m³) (8 h)	OEL mg/m³ (15 min)	OEL ppm (ml/m³) (15 min)		
Values not established		-	-	-	-		
Germany (TRGS 900):					_		
Substance		OEL mg/m³ (8 h)	OEL ppm (ml/m³) (8 h)	OEL mg/m³ (15 min)	OEL ppm (ml/m³) (15 min)		
Values not established		-	-	-	-		
United Kingdom (EH40/2	2005):						
Substance		OEL mg/m³ (8 h)	OEL ppm (ml/m³) (8 h)	OEL mg/m³ (15 min)	OEL ppm (ml/m³) (15 min)		
Values not established		-	-	-	-		
8.2. Exposure controls							
Appropriate engineering Controls:	Good general ventilation should be sufficient to control worker exposure to airborne contaminants.						
Individual protection	measures	s, such as personal p	protective equipment:				
Hygiene measures	Wash hands, forearms and face thoroughly after handling chemical products, before eating, smoking and using the lavatory and at the end of the working period. Appropriate techniques should be used to remove potentially contaminated clothing. Wash contaminated clothing before reusing. Ensure that eyewash stations and safety showers are close to the workstation location.						
Eye/face protection	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.						
Skin protection	<u></u>						
Hand protection	when h Check d be note manufa	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical product if a risk assessment indicates this is necessary. Check during use, that the gloves still provide the level of protection specified by the manufacturer. It should be noted that the time to breakthrough for gloves of the same material may differ from manufacturer to manufacturer. In case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated.					
Body protection		Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.					

Date of issue/Date of revision:	08.04.2022	Date of previous issue:	-	Version: 1.0	5 / 12	

Other skin protection	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.				
Respiratory protection	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.				
Environmental exposure controls	Emissions from ventilation or work process equipment should be checked to ensure they comply with requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will necessary to reduce emissions to acceptable levels.

	No known significant effects or critical hazards.		
SECTION 13: Disp	posal considerations		
The information in this	section contains generic advice and guidance.		
13.1. Waste treatment	methods		
Product			
Methods of disposal	The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.		

by EU Directive 2008/98/EC. European waste 160306 organic wastes other than those mentioned in 16 03 05

Packaging

Methods of disposal | The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible.

Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined

Special precautions

Hazardous waste

catalogue (EWC):

This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers.

European waste catalogue (EWC): 19 12 01 paper and cardboard
