| | Rescue Service: 112 To be filled by local b | usiness. | | | | | | | |
| SECTION 2: Hazar | ds identificatio | n | | | | | | | |
| 2.1. Classification of the | substance or mixture | | | | | | | | |
| Product definition: | Mixture | | | | | | | | |
| Classification according | to Regulation (EC) No | o. 1272/2008 [CLP] | | | | | | | |
| Not classified as hazard | ous. | | | | | | | | |
| | | rding to Regulation (EC) 1. nation on health effects ar | 272/2008 as amended. Id symptoms, and environ | mental impact. | | | | | |
| 2.2. Label elements | | | | | | | | | |
| According to Regulation | (EC) No. 1272/2008 [| CLP] | | | | | | | |
| Hazard pictograms | Not applicable. | | | | | | | | |
| Signal word: | No signal word. | | | | | | | | |
| Hazard statements | No known significant | effects or critical hazards. | | | | | | | |
| Precautionary statements: | | | | | | | | | |
| General | Keep out of reach of | children. If medical advice | is needed, have product c | ontainer or labe | l at hand. | | | | |
| Prevention | Wash hands thoroug | hly after handling. | | | | | | | |
| Date of issue/Date of revis | ion: 08.04.2022 | Date of previous issue: | - | Version: 1.0 | 1/13 | | | | |

MARE Soy wax candle with Amber scent Soy wax tealight candles with Amber scent Soy wax candle in a concrete container with Amber scent

| Response | If skin irritation occurs: Get medical advice/ attention. |
|-----------------------------|--------------------------------------------------------------------------------|
| Storage | Not applicable. |
| Disposal | Not applicable. |
| Hazardous ingredients | Not applicable. |
| Supplemental label elements | EUH208 Contains D-Limonene; Benzyl Salicylate. May cause an allergic reaction. |

Annex XVII – Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles

| | None |
|-------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Special packaging requi | rements: |
| Containers to be fitted with child-resistant fastenings: | Not applicable. |
| Tactile warning of danger (Δ): | Not applicable. |
| 2.3. Other hazards | |
| Other hazards which do : not result in classification: | For candles (EN 15494:2019), minimum height: 5mm |
| | Recommended phrase: People suffering from perfume sensitivity should be cautious when using this product. Air Fresheners do not replace good hygiene practices. |

SECTION 3: Composition/information on ingredients

| 3.2. Mixtures A mixture of vegetable wax, non-hazardous ac fragrances listed below. | | | | | d fragrances, and the hazardous addition | ves and |
|--------------------------------------------------------------------------------------------|-----------|-----------|--------------|-----------|-------------------------------------------------------------------------------------------------------------------------------------------|---------|
| SUBSTANCE NAME | CAS NO. | EC NO. | INDEX NO. | CONC. (%) | CLASSIFICATION IN ACCORDANCE REGULATION 1272/2008 / EC (CLP) | TYPE |
| (R)-p-mentha-1,8- diene; d-limonene | 5989-27-5 | 227-813-5 | 601-096-00-2 | 0.1-<1.0% | Flam. Liq. 3, H226 Asp. Tox. 1, H304 Skin Irrit. 2, H315 Skin Sens. 1B, H317 Aquatic Acute 1, H400 Aquatic Chronic 3, H412 | [1] [2] |
| Benzyl Salicylate | 118-58-1 | 204-262-9 | 607-754-00-5 | 0.1-<1.0% | Skin Sens. 1B, H317 | [1] |

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs, vPvBs or Substances of equivalent concern, or have been assigned a workplace exposure limit and hence require reporting in this section.

REACH Registration: In accordance with Regulation (EC) No. 1907/2006 of the European Parliament and of the Council. Point 9 of ANNEX V to Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorization and Restriction of Chemicals (REACH) exempts vegetable waxes from registration.

| Date of issue/Date of revision: | 08.04.2022 | Date of previous issue: | - | Version: 1.0 | 2 / 13 |
|---------------------------------|------------|-------------------------|---|--------------|--------|
| | | | | | |

Types:

- [1] Substance classified with a health or environmental hazard
- [2] Substance with a workplace exposure limit
- [3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII
- [4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII
- [5] The substance is included in the SEVESO Directive.

SECTION 4: First aid measures

| 4.1. Description of firs | t aid measures |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Eye contact: | Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Get medical attention if irritation occurs. |
| Inhalation: | Remove victim to fresh air and keep at rest in a position comfortable for breathing. Get medical attention if symptoms occur. |
| Skin contact: | Flush contaminated skin with plenty of water. Remove contaminated clothing and shoes. Get medical attention if symptoms occur. |
| Ingestion: | Wash out mouth with water. Remove victim to fresh air and keep at rest in a position comfortable for breathing. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Do not induce vomiting unless directed to do so by medical personnel. Get medical attention if symptoms occur. |
| Protection of first- aiders | No action shall be taken involving any personal risk or without suitable training. |

4.2. Most important symptoms and effects, both acute and delayed

Over-exposure signs/symptoms:

| Over-exposure signs/s | |
|--------------------------------------|---------------------------------------------------------------------------------------------------------------------------|
| Eye contact: | No specific data. |
| Inhalation: | No specific data. |
| Skin contact: | May cause skin irritation or sensitization. |
| Ingestion: | No specific data. |
| 4.3. Indication of any in | nmediate medical attention and special treatment needed |
| Notes to physician | Treat symptomatically. Contact poison treatment specialist immediately if large quantities have been ingested or inhaled. |
| Unsuitable extinguishing media | No specific treatment. |

SECTION 5: Firefighting measures

| 5.1. Extinguishing media | |
|---------------------------------------|---------------------------------------------------------------|
| Suitable extinguishing media: | Use an extinguishing agent suitable for the surrounding fire. |
| Unsuitable extinguishing media: | None known. |
| 5.2. Special hazards arisi | ing from the substance or mixture |
| Hazards from the | In fire decomposition products may be produced. |

| Date of issue/Date of revision: | 08.04.2022 | Date of previous issue: | - | Version: 1.0 | 3 / 13 |
|---------------------------------|------------|-------------------------|---|--------------|--------|

MARE Soy wax candle with Amber scent Soy wax tealight candles with Amber scent ov wax candle in a concrete container with Amber scer

| | Soy wax candle in a concrete container with Amber scent | |
|--------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
| substance or mixture: | | |
| Hazardous combustion products: | No specific data. | |
| 5.3. Advice for firefighte | irs | |
| Special protective actions for fire-fighters: | Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No acti shall be taken involving any personal risk or without suitable training. | ion |
| Special protective equipment for fire- fighters: | Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCE with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helme protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protectifor chemical incidents. | ets, |
| SECTION 6: Accide | ental release measures | |
| 6.1. Personal precaution | ns, protective equipment and emergency procedures | |
| For non-emergency personnel: | No action shall be taken involving any personal risk or without suitable training. Evacuate surrounding areas. Keep unnecessary and unprotected personnel from entering. Do not touch walk through spilled material. Put on appropriate personal protective equipment. | or |
| For emergency responders: | If specialized clothing is required to deal with the spillage, take note of any information in Section 8 suitable and unsuitable materials. See also the information in "For non-emergency personnel". | on |
| 6.2. Environmental preca | autions | |
| | Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Info the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air | |
| 6.3. Methods and mater | rial for containment and cleaning up | |
| Small spill | Move containers from spill area. Vacuum or sweep up material and place in a designated, labeled was container. Dispose of via a licensed waste disposal contractor. | ste |
| Large spill | Move containers from spill area. Prevent entry into sewers, water courses, basements or confined are Vacuum or sweep up material and place in a designated, labeled waste container. Dispose of via a licens waste disposal contractor. | |
| 6.4. Reference to other s | sections | |
| | See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment. See Section 13 for additional waste treatment information. | |
| SECTION 7: Hand | ling and storage | |
| The information in this se | ection contains generic advice and guidance. | |
| 7.1. Precautions for safe | handling | |
| Protective measures | Put on appropriate personal protective equipment (see Section 8). | |
| Advice on general occupational hygiene | Eating, drinking and smoking should be prohibited in areas where this material is handled, stored a processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminat clothing and protective equipment before entering eating areas. See also Section 8 for additional information by grant areas. | ted |

7.2. Conditions for safe storage, including any incompatibilities

on hygiene measures.

| Date of issue/Date of revision: | 08.04.2022 | Date of previous issue: | - | Version: 1.0 | 4 / 13 |
|---------------------------------|------------|-------------------------|---|--------------|--------|
| | | | | | |

MARE Soy wax candle with Amber scent Soy wax tealight candles with Amber scent Soy wax candle in a concrete container with Amber scent

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabeled containers. Use appropriate containment to avoid environmental contamination.

| | | | | | |

MARE Soy wax candle with Amber scent Soy wax tealight candles with Amber scent Soy wax candle in a concrete container with Amber scent

| Skin protection | |
|---------------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Hand protection | Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical product if a risk assessment indicates this is necessary. Check during use, that the gloves still provide the level of protection specified by the manufacturer. It should be noted that the time to breakthrough for gloves of the same material may differ from manufacturer to manufacturer. In case of mixtures, consisting of several substances, the protection time of the gloves cannot be accurately estimated. |
| Body protection | Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Other skin protection | Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product. |
| Respiratory protection | Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use. |
| Environmental exposure controls | Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels. |

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

| Appearance: | |
|--------------------------------------------------|----------------------------------------------------------------------------------------|
| Physical state: | Solid. [Candles] |
| Color: | Dark blue. |
| Odor: | Amber with notes of lime. |
| Odor threshold: | Not available. |
| pH: | Not available. |
| Melting point/freezing point: | ~50°C |
| Initial boiling point: | Not available. |
| Flash point: | > 150 °C (ASTM D92, COC) |
| Evaporation rate: | Not available. |
| Flammability (solid, gas) | May ignite at high temperatures. |
| Upper/lower flammability or explosive limits: | Not available. |
| Vapor pressure: | Insignificant. |
| Vapor density: | Not available. |
| Relative density at 15 °C: | 0.89 – 0.92 |
| Solubility(ies): | Water: <1 mg/L Other solvents: Pet ether, ethyl acetate, soluble in vegetable oils. |
| Partition coefficient: N-octanol/ Water: | Not available. |
| Decomposition temperature | Not available. |

| Date of issue/Date of revision: | 08.04.2022 | Date of previous issue: | - | Version: 1.0 | 6 / 13 |
|---------------------------------|------------|-------------------------|---|--------------|--------|

| Soy wax candle in a concrete container with Amber scent | | | | |
|---------------------------------------------------------|----------------|--|--|--|
| Viscosity | Not available. | | | |
| Self-ignition temperature: | >200 °C | | | |
| Explosive properties | Not available. | | | |
| Oxidizing properties | Not available. | | | |
| 9.2. Other information | | | | |
| Self-ignition temperature: | Not available. | | | |
| | | | | |

SECTION 10: Stability and reactivity

| 10.1. Reactivity | No specific test data related to reactivity available for this product or its ingredients. |
|----------------------------------------------|------------------------------------------------------------------------------------------------------------------|
| 10.2. Chemical stability | The product is stable. |
| 10.3 Possibility of hazardous reactions | Under normal conditions of storage and use, hazardous reactions will not occur. |
| 10.4. Conditions to avoid | Extreme temperatures (Very high or very low) - Preferred storage temperature from 5 to 39 $^\circ$ C. |
| 10.5. Incompatible materials | May react with strong Oxidising agents (eg Chlorates, Peroxides). |
| 10.6. Hazardous decomposition products | Thermal decomposition or incomplete combustion may produce carbon monoxide, nitrogen gases and irritating fumes. |

SECTION 11: Toxicological information

| Acute toxicity | | | | | | |

| PBT: | Not applicable. |
| vPvB: | Not applicable. |
| 12.6. Endocrine disrupt | ing properties |
| No information availabl | e |
| 12.7. Other adverse eff | ects |
| | No known significant effects or critical hazards. |
| SECTION 13: Dis | posal considerations |
| The information in this | section contains generic advice and guidance. |
| 13.1. Waste treatment | methods |
| <u>Product</u> | |
| Methods of disposal | The generation of waste should be avoided or minimized wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and nonrecyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. |
| Hazardous waste | Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU Directive 2008/98/EC. |
| European waste catalogue (EWC): | 160306 organic wastes other than those mentioned in 16 03 05 |
| Packaging | |
| Methods of disposal | The generation of waste should be avoided or minimized wherever possible. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. |
| Special precautions | This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. |
| European waste catalogue (EWC): | 19 12 01 paper and cardboard 17 04 07 mixed metals 17 01 01 concrete |

SECTION 14: Transport information

For long distance transport of bulk material or shrunk pallet take into consideration sections 7 and 10.
